

This **Paediatric 12 Hour Infant/Child First Aid Level 3 (VTQ) - Classroom Blended Part 2** includes 6 hours of instruction conducted by an instructor in a classroom setting. To book onto a course, please visit www.procourses.co.uk to locate a blended part 2 session in your area. Once you have registered, your instructor will provide you with instructions on completing the online blended part 1.

ProTrainings introduced blended Paediatric First Aid training courses in 2009, which have since emerged as the premier option for blended training. By completing half of your Paediatric First Aid course online, you save a full day in the classroom while earning the same qualification. You can begin immediately, and we have a network of over 1500 instructors nationwide to facilitate your practical session.

This course provides an excellent solution for individuals who are unable to commit to a two-day classroom-only course due to time constraints. Upon successful completion of both the online and classroom components, you will receive a ProTrainings wall certificate and a classroom certificate.

Our blended paediatric course aligns with the requirements for registering as a childminder or working in a childcare setting, as stipulated by EYFS, CSSIW, and SureStart. ProTrainings Paediatric courses are widely accepted throughout the UK and meet the latest learning outcomes specified by the Awarding Organisations.

All our first aid courses fully adhere to the latest UK and European Resuscitation Council Guidelines, as mandated by HSE requirements. ProTrainings Vocational Training Qualifications (VTQ) are fully endorsed by the HSE as Trade Body Qualifications.

Please note that learners undertaking a ProTrainings Training Course have the option to choose a regulated qualification. Additionally, please be aware that the classroom course has a minimum age requirement of 14.

The content of this and all our courses has been independently certified as conforming to universally accepted Continuous Professional Development (CPD) guidelines and come with a Certified CPD Statement as well as a ProTrainings Certificate and for online courses an Evidence Based Learning statement.

This is the classroom-only part 2 of a 2-part blended course. Before taking this course, you MUST complete the [online course](#).

The person named below has successfully completed

Paediatric Infant & Child First Aid Level 3

SAMPLE STUDENT

**Meets the First Aid recommendations of CIW & EYFS
Complies with 12 hour 2 day course requirements**
